

DPW DEPARTMENT FAQs

DPW DEPARTMENT:

How can I avoid frozen pipes?

During extreme cold weather your home is susceptible to frozen pipes. Leave a faucet(s) dripping to keep from freezing. Know where your water shut off inside the house is and that it is in operating order.

When is leaf pick-up?

The City offers leaf pick, at no charge, usually from about the third week of October through about the third week of November. Exact dates are subject to weather. Please rake leaves out into the street for pick-up. **NO BRANCHES OR OTHER YARD DEBRIS. LEAVES ONLY.**

Does trash pick-up include yard waste?

Yard waste is not included in trash pick-up. It is a completely separate service, which homeowners will need to make arrangements for directly with Jeff's Rubbish (810-384-1448). The cost is \$72.00 and runs from April – November.
